• *The decimal represents the portion of the level completed. It is calculated based on Combos completed out of Combos required.*

Note the student's starting level, along with the date the first Reading lesson was completed.

See the number of words the student has mastered on the current level.

Students must master at least 180 words to complete a level.

The goal is for students to master grade-level content in Reading.

Once they are reading grade-level content, students must earn 10 out of 10 Combos to demonstrate mastery and complete the level.

View the student's current level.

The decimal represents the portion of the level completed. It is derived by number of words mastered out of 180.

Student Overview

Use the *Student Overview* to glean valuable information regarding assessment results and competence with essential comprehension skills.

View the student's proficiency level for all assessments completed.

Proficiency level is a composite measure that includes comprehension level, vocabulary level, and silent reading rate.

Click the *green arrow* to see additional details.

Analyze the student's performance with nine comprehension Anchor Skills. Data is based on all completed Reading lessons.

Data is displayed as percentages by default.

Click the # to see the number of comprehension questions answered correctly, out of the number of exposures to questions of that type.

Assessment

	Initial	Mid	End	
Proficiency Level	1.3	2.0	–	⌄
