

Reading Solutions UK

We're proud to support the Digital Poverty Alliance whose vision is to live in a world which enables everyone to access the life-changing benefits that digital brings.

Did you know?

More than a third (36%) of primary school-age children did not always have access to an adequate device for online learning at home, compared to 17% of secondary-age children.

2.9 million young people (21%) do not have access to either a laptop or desktop computer.

A third of young people (32%) do not have access to home broadband.
