

We're proud to support the Digital Poverty Alliance in achieving their vision of living in a world that enables everyone to access the life-changing benefits of digital technology.

Did you know?

26% of young people do not have access to a laptop or similar device.

53% of people offline can't afford an average monthly broadband bill.

1 in 5 children home-schooling during the pandemic did not have access to an appropriate device like a laptop.
